PERSONNEL CASUALTY REPORTING CHANGES

BACKGROUND

The requirement for accurate and timely personnel casualty reporting was formerly received through paper submission.

Information requirements can now be met more easily when those requirements are clearly identified.

The changes will facilitate senior level situational awareness along with the ability to

PERSONNEL CASUALTY REPORTING CHANGES

CHANGES

- Use of seatbelts
- Use of alcohol
- Weather conditions
- Deployment connection – OIF/OEF?
- Use of Personal Protective Equipment
- Name of first General in Chain of Command
- Unit Safety Officer initiates investigations and prod
  follow-ups to initial reports

PERSONNEL CASUALTY REPORTING CHANGES

DIFFICULTIES

- Timeliness vs. Accuracy
- Casualty between duty stations – MCA first learning of mishap
- Update on the DD 1300 – new items must be added into remarks block
  - Electronic submission now the norm
